

Spring ACT 2018 -- Workshop

Small class size (4 to 9 students) -- Individual attention

Complete Math, Reading, Writing and Science Preparation

Tom Clements Tutoring

- WHAT** I do small group classes that meet once a week for 2 hours with one hour of homework. Small group classes allow kids to interact with each other (and me) in a positive, dynamic manner. During and outside of class we cover extensive practice tests exclusively from the ACT org.
- I provide a comprehensive binder that includes **front-end templates** to give students a strategic overview of practice test material; in class, I follow up each practice test or homework exercise with **back-end analysis** to help students comprehend relationships and understand mistakes.
- WHY** Here's why my classes are unique:
- * I'm a former college teacher (St. Mary's College) with 30 years experience tutoring/teaching dynamic small-group test prep classes in the Lamorinda community. Since I teach all classes myself, I ensure consistent, top-level instruction across all subject matter: Math, English, Reading and Science
 - * Unlike instructors for large test prep companies or hit-and-miss online courses, I provide a consistent single point-of-contact for parents and students
 - * My four daughters attended Campolindo High School, aced their test prep and obtained advanced degrees from various universities: Harvard, Brown, USF Law School, NYU, Sarah Lawrence, and UCSB
 - * As the author of several best-selling test-prep books on Amazon for SAT/ACT essay writing and grammar usage — and as a highly-regarded local math, chemistry, physics and calculus tutor -- I bring expert skills to the table
- WHEN** **Thursday** -- 5:30 to 7:30 PM — **14 classes, including one take-home exam** (March 1st - June 9th)
OR
Saturday -- 11 AM to 1 PM — **14 classes, including one take-home exam** (March 3rd - June 9th)
- BREAKS** No class during **spring break**, week of March 31st to April 6th. Over spring break, students receive an ACT take-home packet to tackle on their own, using the strategies and techniques they've learned in class. **No other breaks scheduled.**
- WHICH ACT** All classes prepare students for the **June 9th, 2018 ACT**. Students **also** take the **April 14th**, test as a prelude to the **June 9th** test. Be sure to register for **BOTH** test dates -- **with essay** -- at the ACT org website: <https://www.act.org>
- WHO** Instruction provided by Tom Clements, M.S. — best-selling test-prep author, award winning poet, former college teacher (St.Mary's College), and **physics, chem, AP chem and calculus** tutor.
- HOW MUCH** **\$1995 with early registration.** \$2195 after December 31st, 2017. Please send a \$295 deposit to secure a spot in the class.
- WHERE** At my office: 346 Rheem Blvd in Moraga, Suite 110-B, (94556). Big, two-story building across the street from the new police station and next to the convalescent hospital.
- WEBSITE/
YOU-TUBE** To see my classes in action, check out my website at: www.tctutoring.net -- or view my YouTube channel at:
www.youtube.com/tctutoring
- CONTACT** tctutoring@comcast.net or 376-4704

My students have studied at Harvard, MIT, NYU, UCLA, Yale, Cal, and Columbia, among many others

Group tutoring available in SAT and SAT II: chem, physics, math 2
