

Summer SAT for SOPHOMORES

Small class size (5 to 9 students) -- Individual attention

2017 -- 2018 schedule

Tom Clements Tutoring

- WHO** Tom Clements, B.A., M.S. — author of three top-selling test prep books on amazon, former college teacher (St. Mary's College), physics, chem, AP chem and calculus tutor. I teach all classes myself, ensuring consistency of instruction across all sections. Moreover, as a single point of contact, I'm always personally available to parents by phone and email. Thirty years experience. Sterling recommendations.
- WHAT** My SAT test prep programs are unique in the area. Classes run for 9 weeks during the summer (with built-in makeup classes for students away on vacation) and are followed up with bi-monthly review sessions during the fall and monthly review sessions during the spring. This allows students to focus on test prep fundamentals during the summer (when they have a less intensive academic load) and then augment their test prep review sessions and practice tests with academic advances in junior-year Math and Reading.
- WHEN** My students take the PSAT in October and the SAT in both March and May, when they are at the peak of their academic prowess and test-prep expertise.
- WHY** Unlike other test prep organizations, which employ "student teachers" to instruct different areas of the test, I teach all classes myself, ensuring consistency of instruction across all Math and Verbal sections. Moreover, unlike online courses, my hands-on program provides personal supervision, individual attention and peer-group encouragement.
- SCHEDULE**
- SAT program - Section 1 18 classes (Cost = \$2195)**
Sundays -- 7 - 9 PM. Students take the SAT in both March and May
9 summer SAT classes (June 25 to August 20) -- once a week for nine weeks during the summer
